

AMR.Gene.Family

- OXA beta-lactamase
- nitroimidazole reductase
- tetracycline inactivation enzyme
- chloramphenicol acetyltransferase (CAT)
- streptogramin vgb lyase
- ANT(3)
- macrolide phosphotransferase (MPH)
- ADC beta-lactamases pending classification for carbapenemase activity
 - CfiA beta-lactamase
 - MOX beta-lactamase
- other
